THE CHALLENGE

Your Enterprise Faces an AI Accountability Gap

- **AI decisions are black boxes** — no audit trail, no explainability for regulators
- **Single-model risk** — one hallucination becomes a compliance violation or business loss
- **Data sovereignty concerns** — cloud AI tools copy your sensitive data
- **Regulatory pressure mounting** — EU AI Act, DORA, US AI Executive Order all demand AI governance
- **Board-level visibility gap** — executives can't see how AI reached its conclusions
