Sovereign AI for Classified Environments — Air-Gapped, ITAR-Compliant

Decision Crisis Immunization Infrastructure

WHY NOW

THE PROBLEM

Defense AI Cannot Use Cloud — But Needs Governance

- Classified environments cannot connect to external AI services
- ITAR/EAR export controls prohibit foreign access to controlled data
- EO 14110 mandates AI safety and accountability in federal systems
- Intelligence analysis uses AI with no structured dissent or evidence
- No existing AI platform operates fully air-gapped with hardware-rooted trust
