

Aerospace & Aviation

AI Governance for Aircraft Systems, MRO, and Certification

WHY NOW

THE PROBLEM

Aviation AI Faces the Strictest Safety Standards — With No Governance Tooling

- Aircraft systems using AI/ML with no governance framework for certification
- EASA developing AI governance requirements for aviation
- FAA requires DO-178C compliance for airborne software
- MRO decisions influenced by AI predictive maintenance with no audit trail
- Supply chain decisions for safety-critical parts lack evidence

THE SOLUTION

How Datacendia Solves This

Multi-agent deliberation for engineering, safety, and certification — DO-178C-aligned evidence with cryptographic integrity.

Key Use Cases

- **MRO optimization auditable decisions**
- **Supply chain safety-critical sourcing**
- **Certification support evidence**
- **Design review with engineering dissent**
- **Flight operations documented reasoning**

INVESTOR THESIS

Why This Is a Compelling Investment

Aviation is the most safety-critical vertical. EASA and FAA developing AI requirements. First platform with governance tooling for aerospace captures a high-value market.

Platform Proof

- **205K+** passing tests
- **156** validated API endpoints
- **50+** agent presets
- **23** jurisdictions covered
- **4** deployment modes
- **Live** at app.datacendia.com

DATAACENDIA

INVESTOR — INDUSTRY

FOUNDER

Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

Why This Founder

Built the exact data infrastructure that financial institutions need for AI governance — at one of the world's largest asset managers.

THE ASK

\$1.5M Pre-Seed — \$7M Pre-Money Valuation

What's Built

205K+ passing tests. 156 validated API endpoints. Live production platform.

Traction

2 warm enterprise intros (financial institution, Big 4 channel). NVIDIA Inception.

Use of Funds

GTM hiring, SOC 2 Type II certification, first enterprise pilots.

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.
