

Competitive Moat Analysis

Why No Incumbent Can Easily Replicate Datacendia

Decision Crisis Immunization Infrastructure

WHY NOW

THE PROBLEM

Why Can't Big Tech Just Build This?

- OpenAI/Anthropic: Model providers — conflict of interest auditing own models
- ServiceNow/Archer: GRC workflow — no multi-agent AI or crypto evidence
- Palantir: Data analytics — no deliberation, dissent, or air-gapped multi-agent
- Snowflake/Databricks: Data platforms — no decision governance
- From scratch: 205K+ tests, 11 sovereign patterns = years of engineering

4 / 8

THE SOLUTION

How Datacendia Solves This

Unique position: multi-agent deliberation + crypto evidence + sovereign deploy + compliance framework. No single incumbent has all four.

Key Use Cases

- **vs AI providers — govern their models**
- **vs GRC — generate evidence they manage**
- **vs Data platforms — decision layer on top**
- **vs Consultancies — automate manual work**
- **Integration-first architecture**

INVESTOR THESIS

Why This Is a Compelling Investment

Moat is architectural — four capabilities no incumbent combines. Replicating requires years and complete platform rearchitecture.

Platform Proof

- **205K+** passing tests
- **156** validated API endpoints
- **50+** agent presets
- **23** jurisdictions covered
- **4** deployment modes
- **Live** at app.datacendia.com

DATAENDIA

INVESTOR — THEME

FOUNDER

Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

Why This Founder

Built the exact data infrastructure that financial institutions need for AI governance — at one of the world's largest asset managers.

THE ASK

\$1.5M Pre-Seed — \$7M Pre-Money Valuation

What's Built

205K+ passing tests. 156 validated API endpoints. Live production platform.

Traction

2 warm enterprise intros (financial institution, Big 4 channel). NVIDIA Inception.

Use of Funds

GTM hiring, SOC 2 Type II certification, first enterprise pilots.

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.
