

PREPARED FOR THOMA BRAVO

DATA C E N D I A

# Datacendia for Thoma Bravo

Decision Crisis Immunization Infrastructure — personalized to Thoma Bravo's  
investment thesis

---

Private Equity · San Francisco / Chicago · Growth / Buyout · \$130B+ AUM

WHY THOMA BRAVO

Why Datacendia Aligns with Thoma Bravo

Largest software-focused private equity firm. Acquires and scales enterprise software companies. Deep cybersecurity portfolio.

Your Thesis → Our Mission

Thoma Bravo's cybersecurity portfolio (SailPoint, Sophos, Proofpoint) + enterprise software expertise = understanding that AI governance is the next security category.

Portfolio Adjacency

- SailPoint
- Sophos
- Proofpoint
- Dynatrace
- Veracode

Thoma Bravo (\$130B) dominates enterprise security (SailPoint, Sophos, Proofpoint). AI governance is the next security category — Datacendia: cryptographic AI decision security.

THE PROBLEM

# Enterprise AI Has No Accountability Layer

- AI systems make high-stakes decisions with no audit trail, no evidence, and no dissent tracking
- EU AI Act (enforcement 2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% of global revenue
- DORA requires operational resilience documentation for all AI systems in financial services by Jan 2025
- No existing platform provides cryptographic proof of AI-assisted decisions
- Enterprises face regulatory risk with every AI deployment — and have no solution

**€35M**

Max EU AI Act penalty per violation

**0**

Platforms with cryptographic AI decision evidence

**2025**

EU AI Act high-risk provisions take effect

**85%**

of Fortune 500 deploying AI (Gartner)

THE SOLUTION

# Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features

## Key Angle for Thoma Bravo

AI governance as the next enterprise security category

## Sector Focus

Enterprise Security / PE

## 90-Day Guarantee

Deploy Datacendia for 90 days on a single strategic problem. If the Council doesn't identify at least 3 critical risks you missed, we refund the pilot fee.

PLATFORM PROOF

This Is Not a Pitch — It's a Live Platform

**Live Demo**

Production platform at [app.datacendia.com](https://app.datacendia.com)

Multi-agent deliberation, decision audit trails, compliance dashboards, and AI governance gateway — all live.

**NVIDIA Inception Member**

Accepted into NVIDIA's elite startup program.

Access to NVIDIA DGX Cloud, technical mentorship, co-marketing, and enterprise customer introductions.

FOUNDER

# Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

## Why This Founder

Built the exact data infrastructure that financial institutions need for AI governance — at one of the world's largest asset managers.

THE ASK

# \$1.5M Pre-Seed — \$7M Pre-Money Valuation

## What's Built

205K+ passing tests. 156 validated API endpoints.  
Live production platform at [app.datacendia.com](https://app.datacendia.com).

## Traction

2 warm enterprise intros (financial institution, Big 4 channel). NVIDIA Inception member.

## Use of Funds

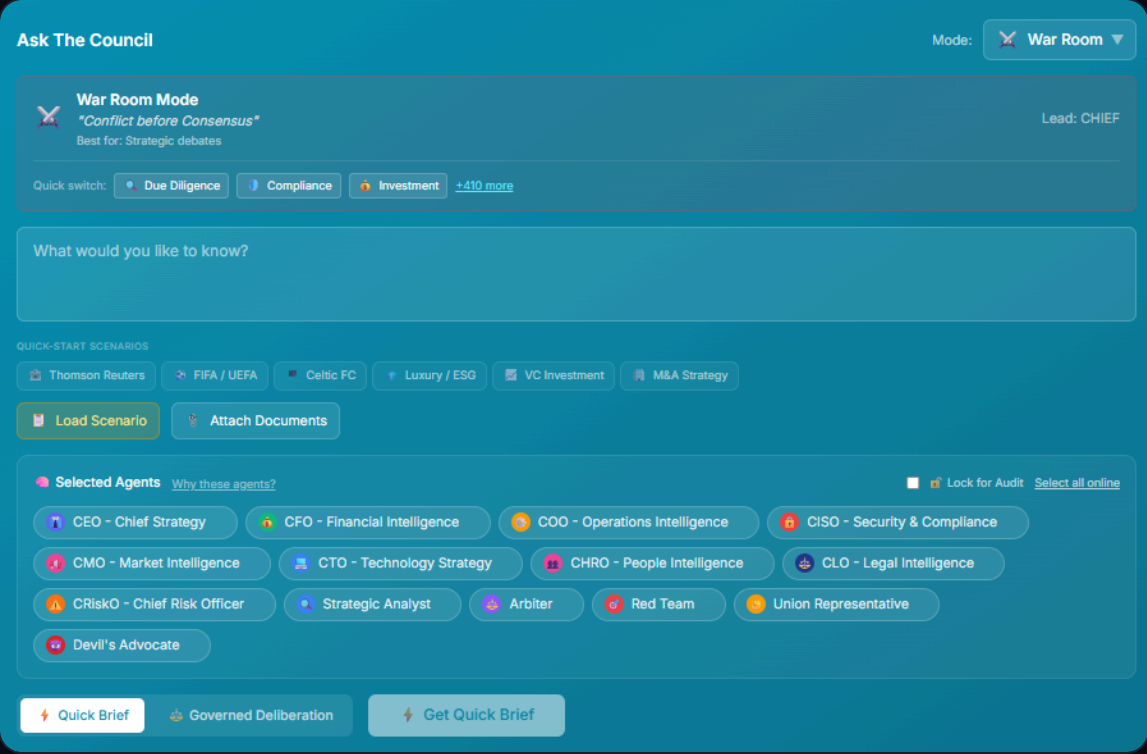

GTM hiring, SOC 2 Type II certification, first enterprise pilots.

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.

MULTI-AGENT DECISION ENGINE

Decisions Made by Specialized AI Agents — Not One Black Box

- Each decision is deliberated by role-specific agents: CFO, CISO, Legal, Strategy, Risk, and more
- Every agent provides a confidence score and reasoning — dissenting views are preserved, not hidden
- War Room, Governed Deliberation, and Quick Brief modes adapt to the urgency and stakes of each decision

## Every Decision Tracked with Confidence, Agents, and Full Evidence Chain

- Complete decision history — searchable by status, confidence level, agent participation, and date
- Each decision links to the full deliberation record: who participated, what they recommended, and why
- Regulators and auditors can trace any decision back to its evidence and reasoning in seconds

| All Decisions                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  | Ask Council                              | Refresh                                   |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|------------------------------------------|-------------------------------------------|
| 6 decisions found                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |  |                                          |                                           |
| <input type="text" value="Search decisions..."/>                                                                                                                                                                                                                                                                                                                                                                                                                                   |  | <input type="button" value="All Modes"/> | <input type="button" value="All Status"/> |
| <h3>Should we expand into the European market in Q2?</h3> <p> <span>Deliberation</span> <span>Completed</span> <span>0.87% confidence</span> <span>6 agents</span> <span>Mar 15, 2026, 08:14 PM</span> </p> <p>The Council recommends proceeding with EU expansion, prioritizing Germany and Netherlands. Risk-adjusted ROI projects 34% within 18 months. Key risks: regulatory compliance (GDPR Article 22), currency exposure, and local hiring timeline.</p>                   |  |                                          |                                           |
| <h3>Evaluate the acquisition of DataSync Corp for \$12M</h3> <p> <span>Deliberation</span> <span>Completed</span> <span>0.72% confidence</span> <span>8 agents</span> <span>Mar 14, 2026, 08:14 PM</span> </p> <p>Split recommendation: CFO and COO agents favor acquisition for talent and IP. CISO agent flagged 3 critical security vulnerabilities in target codebase. Legal agent noted pending IP litigation. Recommend extending due diligence by 30 days.</p>              |  |                                          |                                           |
| <h3>What is the optimal pricing strategy for Enterprise tier?</h3> <p> <span>Deliberation</span> <span>Completed</span> <span>0.91% confidence</span> <span>5 agents</span> <span>Mar 13, 2026, 08:14 PM</span> </p> <p>Strong consensus on value-based pricing at \$2,400/seat/year with volume discounts (10+ seats: 15%, 50+: 25%). Projects 28% increase in enterprise pipeline conversion. CMO agent recommends bundling compliance module as differentiator.</p>             |  |                                          |                                           |
| <h3>Risk assessment for migrating to multi-region cloud infrastructure</h3> <p> <span>Quick Brief</span> <span>Completed</span> <span>0.83% confidence</span> <span>7 agents</span> <span>Mar 12, 2026, 08:14 PM</span> </p> <p>Red team identified 3 critical risks: data sovereignty gaps in APAC region, 340ms latency spikes during cross-region failover, and \$180K/month cost increase. Mitigation plan provided with phased rollout starting US-East → EU-West → APAC.</p> |  |                                          |                                           |
