WHY WING VENTURE CAPITAL

Why Datacendia Aligns with Wing Venture Capital

Enterprise technology specialist. Former operators from enterprise companies. Deep expertise in enterprise go-to-market.

Your Thesis → Our Mission

Wing's enterprise expertise + data infrastructure focus (Snowflake, VAST Data, Cohesity) makes them ideal for Datacendia's enterprise AI governance play.

Wing combines enterprise GTM expertise with data infrastructure pattern-matching (Snowflake, VAST Data). Datacendia is the governance layer for enterprise AI — same enterprise DNA.

THE PROBLEM

Enterprise AI Has No Accountability Layer

- AI systems make high-stakes decisions with no audit trail, no evidence, and no dissent tracking
- EU AI Act (enforcement 2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% of global revenue
- DORA (in effect since Jan 2025) requires operational resilience documentation for all AI systems in financial services
- No existing platform provides cryptographic proof of AI-assisted decisions
- Enterprises face regulatory risk with every AI deployment — and have no solution

THE SOLUTION

Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features
