WHY SCALE VENTURE PARTNERS

Why Datacendia Aligns with Scale Venture Partners

Enterprise SaaS with data-driven approach. Uses proprietary data to identify enterprise breakout companies.

Your Thesis → Our Mission

Scale VP backs enterprise SaaS breakouts. Datacendia's regulatory tailwind (EU AI Act, DORA) creates the forcing function for enterprise adoption — breakout conditions.

Portfolio Adjacency

- Box
- DocuSign
- HubSpot
- Exact Sciences
- Lever

Scale VP identifies enterprise breakouts early (Box, DocuSign). EU AI Act + DORA create a regulatory forcing function for AI governance — Datacendia is positioned at the inflection point.

THE PROBLEM

# Enterprise AI Has No Accountability Layer

- AI systems make high-stakes decisions with no audit trail, no evidence, and no dissent tracking
- EU AI Act (enforcement 2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% of global revenue
- DORA (in effect since Jan 2025) requires operational resilience documentation for all AI systems in financial services
- No existing platform provides cryptographic proof of AI-assisted decisions
- Enterprises face regulatory risk with every AI deployment — and have no solution

**€35M**

Max EU AI Act penalty per violation

**0**

Platforms with cryptographic AI decision evidence

**2025**

THE SOLUTION

# Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features
