DATA C E N D I A

Datacendia for Anthemis Group

Sovereign AI Decision Evidence Infrastructure — personalized to Anthemis Group's
investment thesis

Venture Capital · London, UK · Seed to Series B · \$1B+ AUM

WHY ANTHEMIS GROUP

Why Datacendia Aligns with Anthemis Group

Early-stage ventures shaping the digital economy across fintech, AI, climate, health, and embedded innovation. Especially excited by founders working at the intersections of these systems. Finance as a powerful enabler.

Your Thesis → Our Mission

Anthemis invests at the intersection of fintech, AI, and climate — exactly where Datacendia sits. Every AI-driven lending decision needs fairness evidence (ECOA, CFPB). Every climate risk model needs audit trails (TCFD, TNFD). EU AI Act + DORA make this mandatory across European finance. Datacendia is the accountability layer that makes AI in financial services trustworthy and auditable.

Railsbank

ComplyAdvantage

Anthemis backs founders at the intersection of fintech × AI × climate. Datacendia is that intersection: decision evidence infrastructure proving AI lending is fair, climate risk models are governed, and every AI decision in finance has a cryptographic audit trail. EU AI Act and DORA make this mandatory.

THE PROBLEM

Enterprise AI Has No Accountability Layer

- AI systems make high-stakes decisions with no audit trail, no evidence, and no dissent tracking
- EU AI Act (enforcement 2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% of global revenue
- DORA (in effect since Jan 2025) requires operational resilience documentation for all AI systems in financial services
- No existing platform provides cryptographic proof of AI-assisted decisions
- Enterprises face regulatory risk with every AI deployment — and have no solution

€35M

Max EU AI Act penalty per violation

0

Platforms with cryptographic AI decision evidence

2025

EU AI Act high-risk provisions take effect

85%

of Fortune 500 deploying AI (Gartner)

THE SOLUTION

Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features

Key Angle for Anthemis Group

AI accountability at the fintech × climate × fairness intersection

Sector Focus

Fintech / AI Governance / Climate

90-Day Guarantee

Deploy Datacendia for 90 days on a single strategic problem. If the Council doesn't identify at least 3 critical risks you missed, we refund the pilot fee.

Multi-agent deliberation, decision audit trails, compliance dashboards, and AI governance gateway — all live.

NVIDIA Inception Member

Accepted into NVIDIA's elite startup program.

Access to NVIDIA DGX Cloud, technical mentorship, and co-marketing opportunities.

FOUNDER

Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

Why This Founder

Built the exact data infrastructure that financial institutions need for AI governance — at one of the world's largest asset managers.

THE ASK

\$1.5M Pre-Seed — \$7M Pre-Money Valuation

What's Built

205K+ passing tests. 156 validated API endpoints.
Live production platform at app.datacendia.com.

Traction

NVIDIA Inception member. Live production platform at app.datacendia.com. Open-core Apache 2.0 foundation.

Use of Funds

First enterprise pilots, SOC 2 Type II certification, EU AI Act regulatory validation.

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.
