

DATAACENDIA

Salesforce Integration Design Partnership

- Multi-agent decision intelligence on your Salesforce data
- Decision Crisis Immunization Infrastructure

"Your CRM holds critical customer data. Datacendia analyzes it in place — objects, reports, custom fields — without data movement."

— The Datacendia Manifesto

WHAT WE BUILD

Decision Crisis Immunization Infrastructure

- Multi-agent deliberation — 50+ specialized agent presets
- Cryptographic audit trail — immutable evidence
- Zero-copy architecture — data never leaves your DB
- Sovereign deployment — air-gapped to cloud
- Not a chatbot. A system of specialized intelligences that debate, dissent, and decide — with cryptographic proof of every step.
- 50+ agent presets (CFO, CISO, Risk, Strategy, Legal) deliberate on your data. You get a boardroom debate, not a chatbot answer.
- Every decision, vote, dissent — hashed, timestamped, exportable. When the auditor says "prove it," hand them this.
