THE PROBLEM

What You're Facing Today

- Credit decisions lack documented AI rationale
- DORA requires operational resilience evidence for AI systems
- Trading and risk AI without audit trail
- Regulatory fines escalating year over year
- No way to replay AI-influenced investment decisions
- Cross-border compliance complexity (MiFID II, SOX, Basel)

WHAT WE BUILD

Decision Crisis Immunization Infrastructure

- Multi-agent deliberation — 50+ specialized agent presets
- Cryptographic audit trail — immutable evidence
- Zero-copy architecture — data never leaves your DB
- Sovereign deployment — air-gapped to cloud
- Not a chatbot. A system of specialized intelligences that debate, dissent, and decide — with cryptographic proof of every step.
- 50+ agent presets (CFO, CISO, Risk, Strategy, Legal) deliberate on your data. You get a boardroom debate, not a chatbot answer.
- Every decision, vote, dissent — hashed, timestamped, exportable. When the auditor says "prove it," hand them this.
