

DATAACENDIA

# Datacendia for Pharma & Life Sciences

- Drug development, clinical trials, and FDA compliance with AI audit trails
- Decision Crisis Immunization Infrastructure

THE CHALLENGE

EU AI Act

Healthcare AI = High-Risk (Annex III)

12 yrs

Avg Time to Market

FDA

AI Documentation Requirements

ICH

Good Practice Standards

## THE PROBLEM

# What You're Facing Today

- FDA requires complete documentation of decision processes
- Clinical trial decisions lack structured evidence
- Drug interaction analysis without transparent reasoning
- Manufacturing compliance evidence is manual
- Patent strategy decisions without documented rationale
- Cross-functional alignment fragmented across departments

## WHAT WE BUILD

# Decision Crisis Immunization Infrastructure

- Multi-agent deliberation — 50+ specialized agent presets
- Cryptographic audit trail — immutable evidence
- Zero-copy architecture — data never leaves your DB
- Sovereign deployment — air-gapped to cloud
- Not a chatbot. A system of specialized intelligences that debate, dissent, and decide — with cryptographic proof of every step.
- 50+ agent presets (CFO, CISO, Risk, Strategy, Legal) deliberate on your data. You get a boardroom debate, not a chatbot answer.
- Every decision, vote, dissent — hashed, timestamped, exportable. When the auditor says "prove it," hand them this.

## YOUR SOLUTION

# How Datacendia Solves This

- Clinical trial design — Multi-agent protocol evaluation with safety focus
- FDA submission support — Evidence-based documentation with complete audit trail
- Drug interaction analysis — Multi-perspective safety assessment
- Manufacturing compliance — GMP evidence generation
- Patent strategy — IP landscape analysis with competitive intelligence
- R&D prioritization — Investment analysis with risk assessment
