THE PROBLEM

Education AI Makes Life-Altering Decisions Without Accountability

- Admissions algorithms making life-altering decisions with no explainability
- EU AI Act explicitly classifies education AI as high-risk (Annex III, 3b)
- FERPA requires protection of student education records
- Automated grading with no documented reasoning
- Learning recommendations influencing outcomes without transparency

THE SOLUTION

How Datacendia Solves This

Multi-agent deliberation for admissions, assessment, and student support — FERPA-compliant evidence for every AI-influenced outcome.

Key Use Cases

- Admissions with documented criteria
- Assessment with evidence trails
- Student support documented reasoning
- Resource allocation deliberation
- FERPA compliance evidence

Why This Is a Compelling Investment

Education is explicitly high-risk in EU AI Act Annex III. Every institution using AI for admissions, grading, or student decisions needs governance. Zero incumbents.
