Datacendia for EUCLID TRANSATLANTIC PARTNERS

Decision Evidence Infrastructure for AI Systems

Venture Capital · Washington DC / London · \$200M+ AUM

WHY EUCLID TRANSATLANTIC PARTNERS

Why Datacendia Aligns with EUCLID TRANSATLANTIC PARTNERS

Euclid Transatlantic Partners invests in venture capital opportunities.

Datacendia is the missing governance layer for enterprise AI.

Your Thesis → Our Mission

Datacendia is the missing decision-evidence layer for enterprise AI — the infrastructure that sits between AI deployment and regulatory compliance. As AI adoption accelerates, every enterprise needs cryptographic proof of AI decisions.

Portfolio Adjacency

✓ US-EU defense tech

euclid investment focus aligns with Datacendia. AI governance completes the enterprise stack.

THE PROBLEM

Enterprise AI Has No Decision Evidence Layer

- Every enterprise deploying AI will be required to produce decision evidence under regulatory or legal challenge — and no platform exists to generate it
- EU AI Act (2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% revenue
- DORA requires AI operational resilience for financial services by Jan 2025
- No widely adopted platform provides cryptographically verifiable decision evidence at the decision level
- Enterprises face regulatory risk with every AI deployment — and have no solution

€35M

Max EU AI Act penalty

0

Widely adopted decision-evidence
platforms

2025

EU AI Act high-risk in effect

85%

Fortune 500 deploying AI

THE SOLUTION

Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features

Key Angle for EUCLID TRANSATLANTIC PARTNERS

Decision evidence is the next infrastructure default — every enterprise deploying AI will be required to produce decision evidence under regulatory or legal challenge

Sector: Decision Evidence Infrastructure

Our moat: We define the evidentiary artifact that regulators will eventually expect. First to codify it wins the category.

Why This Must Exist Now

EU AI Act (2025–2026) → enforceable auditability requirements. DORA → operational traceability for financial services. Litigation risk → retrospective scrutiny of AI decisions. Enterprise AI adoption → exploding unaudited decision surface. This creates a new infrastructure requirement: decision evidence.

PLATFORM PROOF

This Is Not a Pitch — It’s a Live Platform

205K+

Passing Tests

 Specialized
 AI
 Agents

- Role-specific agents: CFO, CISO, Legal, Strategy, Risk
- Confidence scores and reasoning — dissent preserved
- War Room, Governed, and Quick Brief modes

FOUNDER

Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

Why This Founder

Built the exact data infrastructure that financial institutions need for AI governance — at one of the world's largest asset managers.

THE ASK

\$1.5M Pre-Seed — \$7M Pre-Money Valuation

What's Built

205K+ passing tests. 156 validated API endpoints. Live production platform at app.datacendia.com.

Traction

Active enterprise design-partner conversations (financial institution, Big 4 channel). NVIDIA Inception member. 3 LOI-stage discussions.

Use of Funds

First 3 design partners signed, SOC 2 Type II certification, regulatory validation (EU AI Act compliance audit).

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.

NEXT STEPS

Let's Talk

Prepared for EUCLID TRANSATLANTIC PARTNERS — Decision evidence is the next infrastructure default — every enterprise deploying AI will be required to produce decision evidence under regulatory or legal challenge
