# Government Agency Design Partnership

Sovereign AI for public sector decision-making and transparency

Decision Crisis Immunization Infrastructure

*Government decisions affect millions. Every recommendation should be explainable, auditable, and replayable — with cryptographic proof.*

## WHAT WE BUILD

# Decision Crisis Immunization Infrastructure

Not a chatbot. A system of specialized intelligences that debate, dissent, and decide — with cryptographic proof of every step.

- **Multi-agent deliberation** — 50+ specialized agent presets
- **Cryptographic audit trail** — immutable evidence
- **Zero-copy architecture** — data never leaves your DB
- **Sovereign deployment** — air-gapped to cloud

## The Council™

50+ agent presets (CFO, CISO, Risk, Strategy, Legal) deliberate on your data. You get a boardroom debate, not a chatbot answer.

## Audit Provenance™

Every decision, vote, dissent — hashed, timestamped, exportable. When the auditor says "prove it," hand them this.
