

DATAACENDIA

Multi-Jurisdiction Compliance Design Partnership

- Clinical decision support with HIPAA-compliant audit trails
- Decision Crisis Immunization Infrastructure

"Multi-Jurisdiction Compliance AI has no accountability layer. Clinical decisions need explainable, auditable AI — with patient safety as the prime directive."

— The Datacendia Manifesto

WHAT WE BUILD

Decision Crisis Immunization Infrastructure

- Multi-agent deliberation — 50+ specialized agent presets
- Cryptographic audit trail — immutable evidence
- Zero-copy architecture — data never leaves your DB
- Sovereign deployment — air-gapped to cloud
- Not a chatbot. A system of specialized intelligences that debate, dissent, and decide — with cryptographic proof of every step.
- 50+ agent presets (CFO, CISO, Risk, Strategy, Legal) deliberate on your data. You get a boardroom debate, not a chatbot answer.
- Every decision, vote, dissent — hashed, timestamped, exportable. When the auditor says "prove it," hand them this.

Multi-Jurisdiction Compliance

How Datacendia Helps

- Clinical systems integration and health informatics
- Safety metrics, adverse event prevention
- HIPAA, FDA, CMS regulatory compliance

USE CASES

Design Partner Scenarios

- Clinical protocol review — Multi-agent evaluation against safety, regulatory, and financial criteria
- Hospital M&A due diligence — Clinical outcomes, compliance, financial health analysis
- Regulatory change impact — CMS/FDA guidance mapped across operations
- Patient safety incident review — Full decision replay with evidence preservation
- Value-based care optimization — Balance quality, outcomes, and financial sustainability

DESIGN PARTNER BENEFITS
