WHY SALESFORCE VENTURES

# Why Datacendia Aligns with Salesforce Ventures

Strategic investments in enterprise cloud ecosystem. Backs companies that extend Salesforce's platform value for enterprise customers.

**Your Thesis → Our Mission**

Datacendia integrates with Salesforce via zero-copy connectors. Enterprise customers can govern AI decisions that touch CRM data without extracting it.

**Portfolio Adjacency**

- Snowflake
- DocuSign
- Zoom
- nCino
- Coupa

Salesforce Ventures backs ecosystem extensions. Datacendia's Salesforce zero-copy integration means AI governance on CRM data without data movement — strategic for Salesforce enterprise customers.

THE PROBLEM

# Enterprise AI Has No Accountability Layer

- AI systems make high-stakes decisions with no audit trail, no evidence, and no dissent tracking
- EU AI Act (enforcement 2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% of global revenue
- DORA (in effect since Jan 2025) requires operational resilience documentation for all AI systems in financial services
- No existing platform provides cryptographic proof of AI-assisted decisions
- Enterprises face regulatory risk with every AI deployment — and have no solution

**€35M**

Max EU AI Act penalty per violation

**0**

Platforms with cryptographic AI decision evidence

**2025**

EU AI Act high-risk provisions take effect

**85%**

of Fortune 500 deploying AI (Gartner)

THE SOLUTION

# Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features
