

PREPARED FOR IN-Q-TEL

DATA C E N D I A

Datacendia for In-Q-Tel

Sovereign AI Decision Evidence Infrastructure — personalized to In-Q-Tel's investment thesis

Strategic VC (CIA) · Arlington, VA · Seed to Series B · N/A (Government) AUM

WHY IN-Q-TEL

Why Datacendia Aligns with In-Q-Tel

CIA's strategic investment arm. Identifies and adapts cutting-edge technology for the US intelligence community.

Your Thesis → Our Mission

The intelligence community needs AI governance that runs fully offline with hardware-rooted accountability. Datacendia was designed for this: air-gapped deployment, TPM 2.0 attestation, and cryptographic evidence for every AI decision — no external dependencies.

Portfolio Adjacency

Palantir

Keyhole (Google Earth)

Recorded Future

FireEye

Palantir gives the IC data analytics. Recorded Future gives threat intelligence. Datacendia adds what neither provides: verifiable proof of how AI-assisted decisions were made, who approved them, and why — deployable in classified environments.

THE PROBLEM

Enterprise AI Has No Accountability Layer

- AI systems make high-stakes decisions with no audit trail, no evidence, and no dissent tracking
- EU AI Act (enforcement 2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% of global revenue
- DORA (in effect since Jan 2025) requires operational resilience documentation for all AI systems in financial services
- No existing platform provides cryptographic proof of AI-assisted decisions
- Enterprises face regulatory risk with every AI deployment — and have no solution

€35M

Max EU AI Act penalty per violation

0

Platforms with cryptographic AI decision evidence

2025

EU AI Act high-risk provisions take effect

85%

of Fortune 500 deploying AI (Gartner)

THE SOLUTION

Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features

Key Angle for In-Q-Tel

AI decision governance for intelligence operations

Sector Focus

Intelligence / Defense

90-Day Guarantee

Deploy Datacendia for 90 days on a single strategic problem. If the Council doesn't identify at least 3 critical risks you missed, we refund the pilot fee.

PLATFORM PROOF

This Is Not a Pitch — It's a Live Platform

205K+

Passing Tests

156

Validated API Endpoints

50+

Agent Presets

Deployment Modes

Live Demo

Production platform at [app.datacendia.com](#)

Multi-agent deliberation, decision audit trails, compliance dashboards, and AI governance gateway — all live.

NVIDIA Inception Member

Accepted into NVIDIA's elite startup program.

Access to NVIDIA DGX Cloud, technical mentorship, and co-marketing opportunities.

FOUNDER

Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

Why This Founder

Built the exact data infrastructure that financial institutions need for AI governance — at one of the world's largest asset managers.

THE ASK

\$1.5M Pre-Seed — \$7M Pre-Money Valuation

What's Built

205K+ passing tests. 156 validated API endpoints.
Live production platform at app.datacendia.com.

Traction

NVIDIA Inception member. Live production platform at app.datacendia.com. Open-core Apache 2.0 foundation.

Use of Funds

First enterprise pilots, SOC 2 Type II certification, EU AI Act regulatory validation.

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.

NEXT STEPS

Let's Talk

Personalized for In-Q-Tel — AI decision governance for intelligence operations
