WHY HV CAPITAL

Why Datacendia Aligns with HV Capital

German enterprise technology authority. Deep Mittelstand network. Strong in enterprise SaaS and marketplace businesses.

Your Thesis → Our Mission

HV's Mittelstand network (German mid-market) is Datacendia's ideal customer base: regulated, compliance-conscious enterprises adopting AI.

Portfolio Adjacency

- Zalando
- HelloFresh
- Flixbus
- Personio

HV Capital's Mittelstand network is 3.5M German companies adopting AI. EU AI Act makes governance mandatory. Datacendia serves German enterprise with sovereign deployment and local data residency.

THE PROBLEM

Enterprise AI Has No Accountability Layer

- AI systems make high-stakes decisions with no audit trail, no evidence, and no dissent tracking
- EU AI Act (enforcement 2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% of global revenue
- DORA (in effect since Jan 2025) requires operational resilience documentation for all AI systems in financial services
- No existing platform provides cryptographic proof of AI-assisted decisions
- Enterprises face regulatory risk with every AI deployment — and have no solution

€35M

THE SOLUTION

Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features
