

PREPARED FOR IDB LAB (INTER-AMERICAN DEVELOPMENT BANK)

DATA C E N D I A

Datacendia for IDB Lab (Inter-American Development Bank)

Sovereign AI Decision Evidence Infrastructure — personalized to IDB Lab (Inter-American Development Bank)'s investment thesis

Development Finance (Grants + Equity) · Washington, DC · Grants \$750K–\$2M / Equity · IDB Group (\$20B+ annual) AUM

WHY IDB LAB (INTER-AMERICAN DEVELOPMENT BANK)

Why Datacendia Aligns with IDB Lab (Inter-American Development Bank)

Innovation arm of the IDB Group. Funds ecosystem-level technology projects across 26 LatAm/Caribbean countries. Active responsible AI initiative. Focus areas: financial inclusion, climate resilience, gender equity. CEO: Graham Macmillan.

Your Thesis → Our Mission

IDB Lab funds ecosystem-level AI governance infrastructure — not individual startups. Datacendia deploys as open-source sovereign AI governance across LatAm fintech ecosystems: bias detection for AI lending (expanding financial access to underserved segments), climate risk AI governance for green finance (TCFD/TNFD compliance), and gender-disaggregated impact assessment. Multi-stakeholder: partner with central banks, fintechs, and universities across Brazil, Mexico, Colombia.

100+ ecosystem projects

Datacendia is open-source AI governance infrastructure deployable across 26 LatAm countries. Three IDB Lab impact challenges in one platform: (1) Financial inclusion — fairness evidence for AI lending prevents discrimination against women and underserved populations, (2) Climate — decision evidence for ESG scoring and green lending models, (3) Gender — bias detection and gender-disaggregated AI audit trails. Sovereign deployment: data stays in-country, supports Spanish and Portuguese, maps to Brazil LGPD and regional AI regulations.

THE PROBLEM

Enterprise AI Has No Accountability Layer

- AI systems make high-stakes decisions with no audit trail, no evidence, and no dissent tracking
- EU AI Act (enforcement 2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% of global revenue
- DORA (in effect since Jan 2025) requires operational resilience documentation for all AI systems in financial services
- No existing platform provides cryptographic proof of AI-assisted decisions
- Enterprises face regulatory risk with every AI deployment — and have no solution

€35M

Max EU AI Act penalty per violation

0

Platforms with cryptographic AI decision evidence

2025

EU AI Act high-risk provisions take effect

85%

of Fortune 500 deploying AI (Gartner)

THE SOLUTION

Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features

Key Angle for IDB Lab (Inter-American Development Bank)

Ecosystem-level AI governance for LatAm financial inclusion, climate risk, and gender equity

Sector Focus

Development Finance / Responsible AI

90-Day Guarantee

Deploy Datacendia for 90 days on a single strategic problem. If the Council doesn't identify at least 3 critical risks you missed, we refund the pilot fee.

FOUNDER

Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

Why This Founder

Built the exact data infrastructure that financial institutions need for AI governance — at one of the world's largest asset managers.

THE ASK

\$1.5M Pre-Seed — \$7M Pre-Money Valuation

What's Built

205K+ passing tests. 156 validated API endpoints.
Live production platform at app.datacendia.com.

Traction

NVIDIA Inception member. Live production platform at app.datacendia.com. Open-core Apache 2.0 foundation.

Use of Funds

First enterprise pilots, SOC 2 Type II certification, EU AI Act regulatory validation.

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.

NEXT STEPS

Let's Talk

Personalized for IDB Lab (Inter-American Development Bank) — Ecosystem-level AI governance for LatAm financial inclusion, climate risk, and gender equity
