DATAACENDIA

Datacendia for DEFY PARTNERS

Decision Evidence Infrastructure for AI Systems

Venture Capital · Menlo Park, CA · \$1B+ AUM

WHY DEFY PARTNERS

Why Datacendia Aligns with DEFY PARTNERS

Defy Partners invests in venture capital opportunities. Datacendia is the missing governance layer for enterprise AI.

Your Thesis → Our Mission

Datacendia is the missing decision-evidence layer for enterprise AI — the infrastructure that sits between AI deployment and regulatory compliance. As AI adoption accelerates, every enterprise needs cryptographic proof of AI decisions.

Portfolio Adjacency

- ✓ Snyk
- ✓ Dialpad

defy portfolio includes Snyk, Dialpad. Datacendia completes the stack with AI governance and audit.

THE PROBLEM

Enterprise AI Has No Decision Evidence Layer

- Every enterprise deploying AI will be required to produce decision evidence under regulatory or legal challenge — and no platform exists to generate it
- EU AI Act (2025–2026) mandates governance for high-risk AI — penalties up to €35M or 7% revenue
- DORA requires AI operational resilience for financial services by Jan 2025
- No widely adopted platform provides cryptographically verifiable decision evidence at the decision level
- Enterprises face regulatory risk with every AI deployment — and have no solution

€35M

Max EU AI Act penalty

0

Widely adopted decision-evidence
platforms

2025

EU AI Act high-risk in effect

85%

Fortune 500 deploying AI

THE SOLUTION

Multi-Agent Deliberation with Cryptographic Evidence

- Multi-agent deliberation with role-specific AI agents (CFO, CISO, Legal, Strategy, Risk, and more)
- Cryptographic decision evidence — Ed25519 signatures, Merkle trees, RFC 3161 timestamps
- Sovereign deployment — Cloud, Private Cloud, On-Premises, and Air-Gapped
- EU AI Act, DORA, GDPR, HIPAA compliance mapping across 23 jurisdictions
- Zero-copy data architecture — data never leaves customer infrastructure
- Open-source core (Apache 2.0) with enterprise features

Key Angle for DEFY PARTNERS

Decision evidence is the next infrastructure default — every enterprise deploying AI will be required to produce decision evidence under regulatory or legal challenge

Sector: Decision Evidence Infrastructure

Our moat: We define the evidentiary artifact that regulators will eventually expect. First to codify it wins the category.

Why This Must Exist Now

EU AI Act (2025–2026) → enforceable auditability requirements. DORA → operational traceability for financial services. Litigation risk → retrospective scrutiny of AI decisions. Enterprise AI adoption → exploding unaudited decision surface. This creates a new infrastructure requirement: decision evidence.

PLATFORM PROOF

This Is Not a Pitch — It’s a Live Platform

205K+

Passing Tests

156

Validated API Endpoints

Deployment Modes

Live Demo

Production platform at app.datacendia.com
Multi-agent deliberation, decision audit trails, compliance dashboards, AI governance gateway — all live.

NVIDIA Inception Member

Accepted into NVIDIA’s elite startup program.
DGX Cloud access, technical mentorship, co-marketing, and enterprise customer introductions.

MULTI-AGENT
 DECISION
 ENGINE

Decisions
 Made
 by
 Specialized
 AI
 Agents

- Role-specific agents: CFO, CISO, Legal, Strategy, Risk
- Confidence scores and reasoning — dissent preserved
- War Room, Governed, and Quick Brief modes

DECISION AUDIT TRAIL

Every Decision Tracked with Full Evidence Chain

- Complete searchable decision history
- Full deliberation records linked to each decision
- Trace any decision back to evidence in seconds

Should we expand into the European market in Q2?

Deliberation

Completed

0.87% confidence

6 agents

Mar 15, 2026, 08:14 PM

The Council recommends proceeding with EU expansion, prioritizing Germany and Netherlands. Risk-adjusted ROI projects 34% within 18 months. Key risks: regulatory compliance (GDPR Article 22), currency exposure, and local hiring timeline.

Evaluate the acquisition of DataSync Corp for \$12M

Deliberation

Completed

0.72% confidence

8 agents

Mar 14, 2026, 08:14 PM

Split recommendation: CFO and COO agents favor acquisition for talent and IP. CISO agent flagged 3 critical security vulnerabilities in target codebase. Legal agent noted pending IP litigation. Recommend extending due diligence by 30 days.

What is the optimal pricing strategy for Enterprise tier?

Deliberation

Completed

0.91% confidence

5 agents

Mar 13, 2026, 08:14 PM

Strong consensus on value-based pricing at \$2,400/seat/year with volume discounts (10+ seats: 15%, 50+: 25%). Projects 28% increase in enterprise pipeline conversion. CMO agent recommends bundling compliance module as differentiator.

Risk assessment for migrating to multi-region cloud infrastructure

Quick Brief

Completed

0.83% confidence

7 agents

Mar 12, 2026, 08:14 PM

Red team identified 3 critical risks: data sovereignty gaps in APAC region, 340ms latency spikes during cross-region failover, and \$180K/month cost increase. Mitigation plan provided with phased rollout starting US-East → EU-West → APAC.

FOUNDER

Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

Why This Founder

Built the exact data infrastructure that financial institutions need for AI governance — at one of the world's largest asset managers.

THE ASK

\$1.5M Pre-Seed — \$7M Pre-Money Valuation

What's Built

205K+ passing tests. 156 validated API endpoints. Live production platform at app.datacendia.com.

Traction

Active enterprise design-partner conversations (financial institution, Big 4 channel). NVIDIA Inception member. 3 LOI-stage discussions.

Use of Funds

First 3 design partners signed, SOC 2 Type II certification, regulatory validation (EU AI Act compliance audit).

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.

NEXT STEPS

Let's Talk

Prepared for DEFY PARTNERS — Decision evidence is the next infrastructure default — every enterprise deploying AI will be required to produce decision evidence under regulatory or legal challenge
