

WHY NOW

## AI ADOPTION

Public institutions and growth-stage enterprises are moving AI into frontline workflows

## ACCOUNTABILITY

Cross-border coordination and stakeholder scrutiny are increasing

## EXECUTION

Leaders need accountable decisions without heavyweight data movement

## 0

Platforms built for decision evidence and flexible deployment

THE PROBLEM

# Organizations across Morocco - Casablanca are deploying AI without decision evidence

- AI is moving into high-stakes workflows faster than governance is catching up.
- AI ADOPTION
- ACCOUNTABILITY
- EXECUTION
- Decision evidence is the missing layer between AI deployment and defensible regional execution.

THE SOLUTION

## How Datacendia Solves This

Datacendia gives teams in Morocco - Casablanca multi-agent deliberation, full evidence trails, and sovereign deployment for decisions that must stand up to scrutiny.

### Key Use Cases

- Regulatory and policy review with preserved dissent
- Vendor, model, and procurement approvals with exportable evidence
- AI ADOPTION
- Cross-border coordination with accountable approvals and replay
- Incident response and after-action review in minutes, not weeks

# Why Morocco - Casablanca Matters

## AI ADOPTION

### Platform Proof

- ✓ 205K+ passing tests
- ✓ 156 validated API endpoints
- ✓ 50+ agent presets
- ✓ 23 jurisdictions covered
- ✓ 4 deployment modes
- ✓ Live at [app.datacendia.com](https://app.datacendia.com)

FOUNDER

## Stuart Rainey — Founder & CEO

- 7 years as Senior Data Analyst at TCS, embedded with PGIM Fixed Income (\$800B+ AUM)
- Built data infrastructure for regulated investment decisions at institutional scale
- M.S. in Big Data Analytics
- Author of the DDGI framework — ISO/IEC JTC 1/SC 42 standards track
- NVIDIA Inception member

### Why This Founder

Built the data infrastructure and decision workflows required for regulated, high-stakes AI deployments at institutional scale.

THE ASK

# \$1.5M Pre-Seed — \$7M Pre-Money Valuation

## What's Built

205K+ passing tests. 156 validated API endpoints. Live production platform.

## Traction

Active enterprise design-partner conversations (financial institution, Big 4 channel). NVIDIA Inception.

## Use of Funds

First 3 design partners signed, SOC 2 Type II certification, regulatory validation (EU AI Act compliance audit).

\$8.5M post-money · 21.5% dilution · Engineering risk resolved — GTM-stage investment.

MULTI-AGENT
 DECISION
 ENGINE

Decisions
 Made
 by
 Specialized
 AI
 Agents

- Role-specific agents: CFO, CISO, Legal, Strategy, Risk
- Confidence scores and reasoning — dissent preserved
- War Room, Governed, and Quick Brief modes

## DECISION AUDIT TRAIL

## Every Decision Tracked with Full Evidence Chain

- Complete searchable decision history
- Full deliberation records linked to each decision
- Trace any decision back to evidence in seconds

| The Council recommends proceeding with EU expansion, prioritizing Germany and Netherlands. Risk-adjusted ROI projects 34% within 18 months. Key risks: regulatory compliance (GDPR Article 22), currency exposure, and local hiring timeline.   |                                                            |             |            |
| Evaluate the acquisition of DataSync Corp for \$12M                                                                                                                                                                                             |                                                            |             |            |
| Deliberation                                                                                                                                                                                                                                    | Completed 0.72% confidence 8 agents Mar 14, 2026, 08:14 PM |             |            |
| Split recommendation: CFO and COO agents favor acquisition for talent and IP. CISO agent flagged 3 critical security vulnerabilities in target codebase. Legal agent noted pending IP litigation. Recommend extending due diligence by 30 days. |                                                            |             |            |
| What is the optimal pricing strategy for Enterprise tier?                                                                                                                                                                                       |                                                            |             |            |
| Deliberation                                                                                                                                                                                                                                    | Completed 0.91% confidence 5 agents Mar 13, 2026, 08:14 PM |             |            |
| Strong consensus on value-based pricing at \$2,400/seat/year with volume discounts (10+ seats: 15%, 50+: 25%). Projects 28% increase in enterprise pipeline conversion. CMO agent recommends bundling compliance module as differentiator.      |                                                            |             |            |
| Risk assessment for migrating to multi-region cloud infrastructure                                                                                                                                                                              |                                                            |             |            |
| Quick Brief                                                                                                                                                                                                                                     | Completed 0.83% confidence 7 agents Mar 12, 2026, 08:14 PM |             |            |
| Red team identified 3 critical risks: data sovereignty gaps in APAC region, 340ms latency spikes during cross-region failover, and \$180K/month cost increase. Mitigation plan provided with phased rollout starting US-East → EU-West → APAC.  |                                                            |             |            |
