

DATAACENDIA

Snowflake Integration Design Partnership

Decision intelligence on your Snowflake data warehouse

Decision Crisis Immunization Infrastructure

Your data warehouse holds your analytical truth. Datacendia queries Snowflake directly — no additional copies or ETL.

WHAT WE BUILD

Decision Crisis Immunization Infrastructure

Not a chatbot. A system of specialized intelligences that debate, dissent, and decide — with cryptographic proof of every step.

- **Multi-agent deliberation** — 50+ specialized agent presets
- **Cryptographic audit trail** — immutable evidence
- **Zero-copy architecture** — data never leaves your DB
- **Sovereign deployment** — air-gapped to cloud

The Council™

50+ agent presets (CFO, CISO, Risk, Strategy, Legal) deliberate on your data. You get a boardroom debate, not a chatbot answer.

Audit Provenance™

Every decision, vote, dissent — hashed, timestamped, exportable. When the auditor says "prove it," hand them this.
