# Datacendia

Decision Crisis Immunization Infrastructure for the Enterprise

Decision Crisis Immunization Infrastructure

*Modern enterprises have surrendered their minds. They traded ownership for convenience — until they became tenants in their own systems.*

— The Datacendia Manifesto

## WHAT WE BUILD

# Decision Crisis Immunization Infrastructure

Not a chatbot. A system of specialized intelligences that debate, dissent, and decide — with cryptographic proof of every step.

- **Multi-agent deliberation** — 50+ specialized agent presets
- **Cryptographic audit trail** — immutable evidence
- **Zero-copy architecture** — data never leaves your DB
- **Sovereign deployment** — air-gapped to cloud

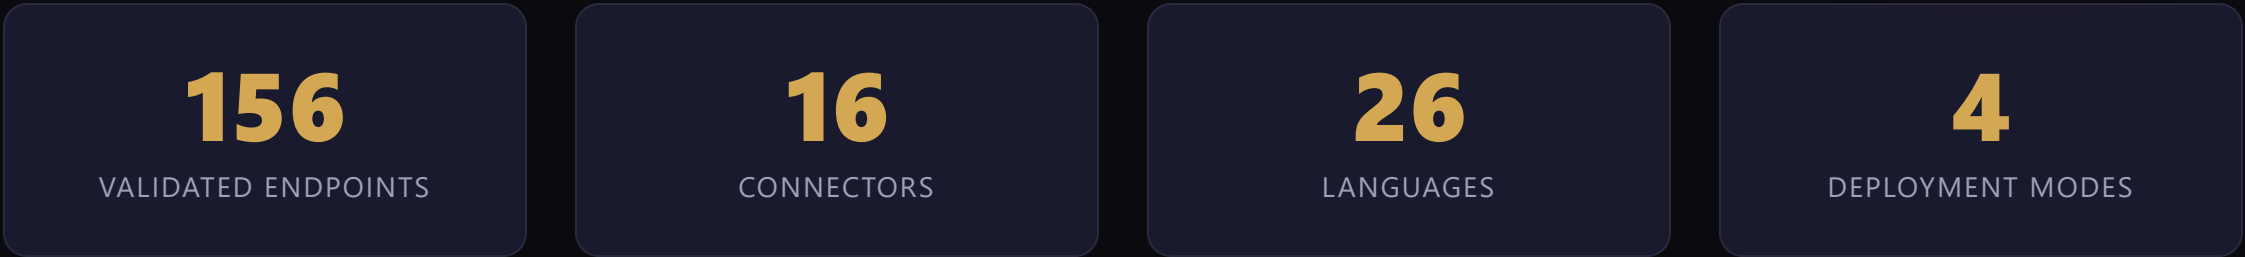

## The Council™

50+ agent presets (CFO, CISO, Risk, Strategy, Legal) deliberate on your data. You get a boardroom debate, not a chatbot answer.

## Audit Provenance™

Every decision, vote, dissent — hashed, timestamped, exportable. When the auditor says "prove it," hand them this.

PRICING

Transparent, Procurement-Ready Pricing

| TIER       | ANNUAL        | USERS     | DELIBERATIONS | SOURCES   | SUPPORT     | SLA    |
|------------|---------------|-----------|---------------|-----------|-------------|--------|
| Pilot      | \$50K         | 10        | 100/mo        | 5         | Priority    | 99.5%  |
| Foundation | \$150K–\$500K | 50        | 1,000/mo      | 25        | Dedicated   | 99.9%  |
| Enterprise | \$500K–\$1.5M | 500       | Unlimited     | Unlimited | White Glove | 99.99% |
| Strategic  | \$1.5M+       | Unlimited | Unlimited     | Unlimited | White Glove | 99.99% |

DEPLOYMENT

Deploy Anywhere — Your Infrastructure, Your Control

| MODE          | DATA LOCATION      | OUR ACCESS    | SETUP  |
|---------------|--------------------|---------------|--------|
| Cloud (SaaS)  | Our infrastructure | Full (logged) | Hours  |
| Private Cloud | Your VPC           | Metadata only | Days   |
| On-Premises   | Your data center   | None          | Weeks  |
| Air-Gapped    | Isolated network   | None          | Weeks+ |

## COMPETITIVE MOAT

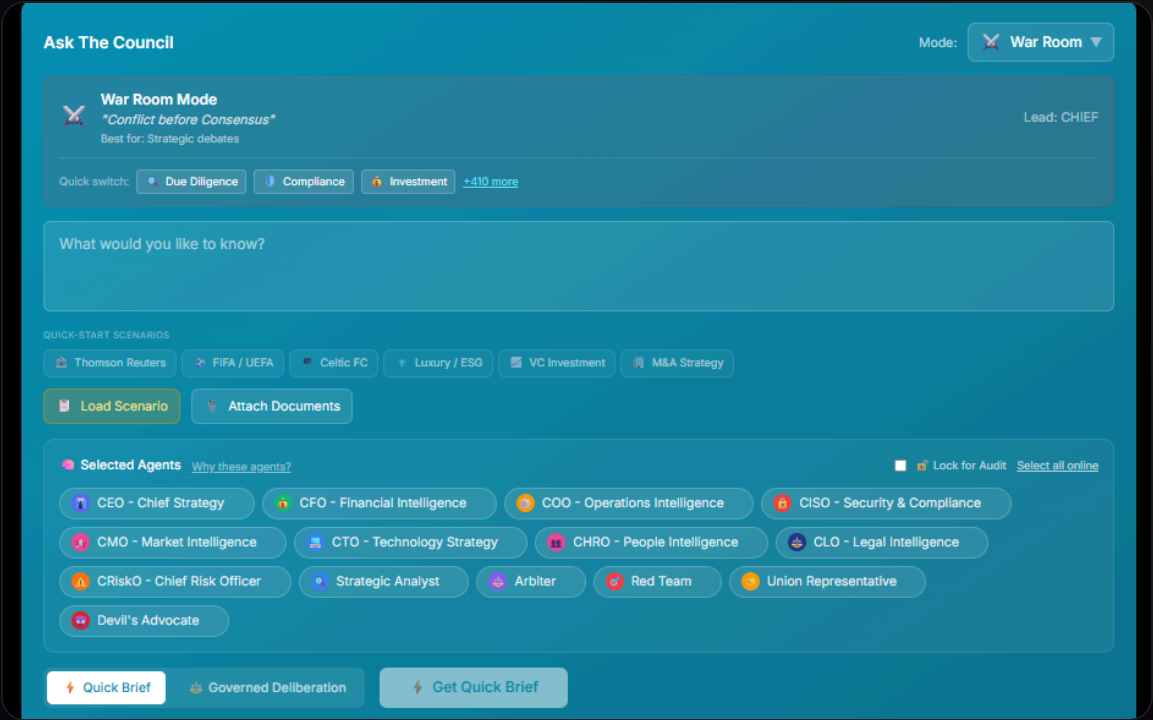

# Why Datacendia Wins

- **Multi-agent deliberation** — No competitor has multi-agent boardroom simulation with cryptographic evidence
- **Cryptographic audit trail** — Immutable evidence with Ed25519/RSA-PSS signatures
- **Zero-copy architecture** — Data never leaves customer databases
- **Air-gapped deployment** — Only platform running offline with hardware-rooted trust
- **11 sovereign patterns** — Data Diode, TPM Attestation, Federated Mesh, etc.
- **Open-source foundation** — Apache 2.0 community edition builds trust pipeline
- **90-day money-back guarantee** — Prove value or refund

MULTI-AGENT DECISION ENGINE

# Decisions Made by Specialized AI Agents — Not One Black Box

- Each decision is deliberated by role-specific agents: CFO, CISO, Legal, Strategy, Risk, and more
- Every agent provides a confidence score and reasoning — dissenting views are preserved, not hidden
- War Room, Governed Deliberation, and Quick Brief modes adapt to the urgency and stakes of each decision

## DECISION AUDIT TRAIL

# Every Decision Tracked with Confidence, Agents, and Full Evidence Chain

- Complete decision history — searchable by status, confidence level, agent participation, and date
- Each decision links to the full deliberation record: who participated, what they recommended, and why
- Regulators and auditors can trace any decision back to its evidence and reasoning in seconds

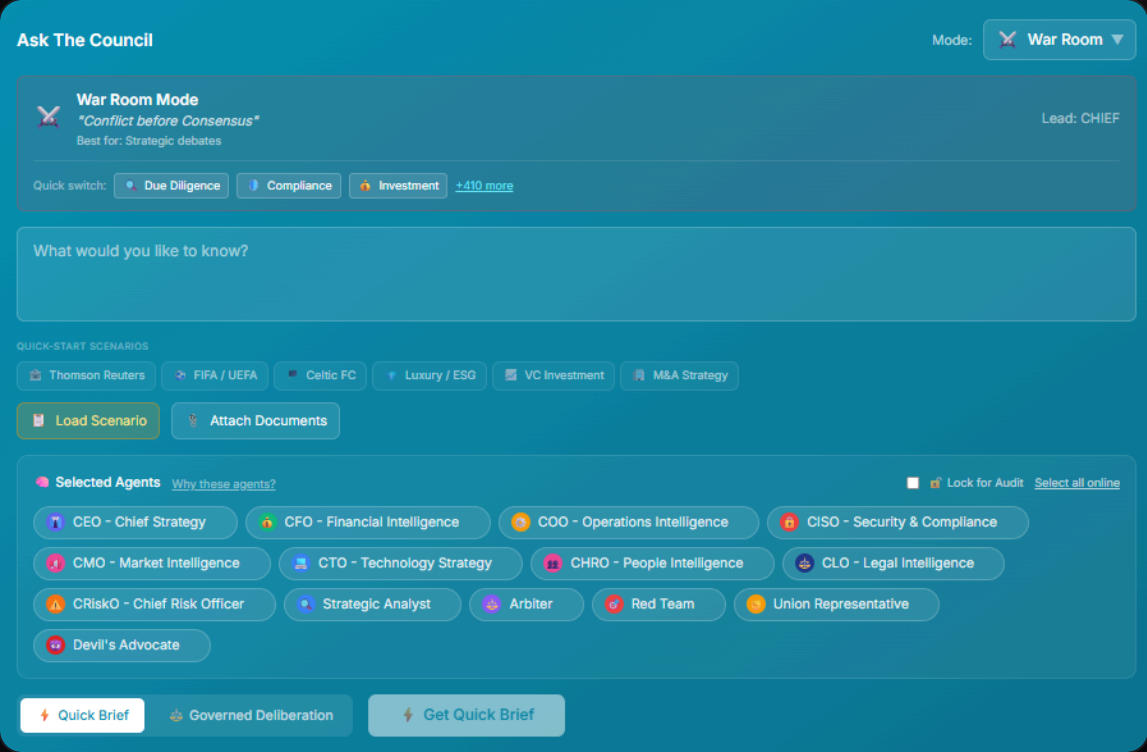

Every Decision Tracked with Confidence, Agents, and Full Evidence Chain

| Should we expand into the European market in Q2?                                                                                                                                                                                                |                                                            |             |            |
| Deliberation                                                                                                                                                                                                                                    | Completed 0.87% confidence 6 agents Mar 15, 2026, 08:14 PM |             |            |
| The Council recommends proceeding with EU expansion, prioritizing Germany and Netherlands. Risk-adjusted ROI projects 34% within 18 months. Key risks: regulatory compliance (GDPR Article 22), currency exposure, and local hiring timeline.   |                                                            |             |            |
| Evaluate the acquisition of DataSync Corp for \$12M                                                                                                                                                                                             |                                                            |             |            |
| Deliberation                                                                                                                                                                                                                                    | Completed 0.72% confidence 8 agents Mar 14, 2026, 08:14 PM |             |            |
| Split recommendation: CFO and COO agents favor acquisition for talent and IP. CISO agent flagged 3 critical security vulnerabilities in target codebase. Legal agent noted pending IP litigation. Recommend extending due diligence by 30 days. |                                                            |             |            |
| What is the optimal pricing strategy for Enterprise tier?                                                                                                                                                                                       |                                                            |             |            |
| Deliberation                                                                                                                                                                                                                                    | Completed 0.91% confidence 5 agents Mar 13, 2026, 08:14 PM |             |            |
| Strong consensus on value-based pricing at \$2,400/seat/year with volume discounts (10+ seats: 15%, 50+: 25%). Projects 28% increase in enterprise pipeline conversion. CMO agent recommends bundling compliance module as differentiator.      |                                                            |             |            |
| Risk assessment for migrating to multi-region cloud infrastructure                                                                                                                                                                              |                                                            |             |            |
| Quick Brief                                                                                                                                                                                                                                     | Completed 0.83% confidence 7 agents Mar 12, 2026, 08:14 PM |             |            |
| Red team identified 3 critical risks: data sovereignty gaps in APAC region, 340ms latency spikes during cross-region failover, and \$180K/month cost increase. Mitigation plan provided with phased rollout starting US-East → EU-West → APAC.  |                                                            |             |            |
